# Growth with Purpose

Eight years of trajectory: we have multiplied our size by 12 through solid and sustained growth.

We manage waste with Sinba to prevent CO<sub>2</sub> emissions.

We donate educational hours through Enseña Perú to help reduce the educational gap.

We transform our passion for food into an opportunity to improve people's lives.

# Leaving a Mark on the Community

We create impact through concrete actions: we visit schools, equip libraries, fight anemia through workshops, and organize reforestation campaigns.

These gestures build, together with you, a brighter future. Because we want our true fire to go beyond our kitchen:

**A FIRE THAT  
NOURISHES**

**A FIRE THAT  
EDUCATES**

**A FIRE  
THAT PRESERVES**
